Taguig City

OBJECTIVE

Seeking a dynamic QA role where I can apply my expertise in testing methodologies, software development life cycles, and quality assurance to ensure the delivery of high quality software products. Eager to contribute to process improvements and drive excellence in software testing.

WORK EXPERIENCE

Software Tester Engineer | Innovator's Media Marketers — April 2024 – August 2025

- Performed manual testing to assess functionality, user interface, and user experience on both Web and Mobile platforms.
- Logged and tracked defects in JIRA, ensuring timely resolution.
- Created and maintained manual test cases tailored for Web, Android and iOS platforms.
- Conducted regression testing on new releases to maintain feature stability.
- Engaged in design reviews to evaluate application functionality from a testing perspective.
- Executed cross-browser and cross-device testing to ensure compatibility.
- Provided feedback during sprint reviews to enhance product quality.

QA Engineer | Dynamic Strategy Solutions Experts Corps. — May 2022 – March 2024

- Designed, maintained, and executed manual and API test cases for Web and Mobile (Android & iOS) platforms to validate functionality, stability, and performance.
- Performed UI/UX validation and cross-browser/device compatibility testing, ensuring consistent and high-quality user experiences across environments.
- Tracked, logged, and prioritized defects in Jira, collaborating with developers to drive timely resolutions and improve release quality.
- Conducted regression, verification, and functional testing to confirm bug fixes, prevent defect leakage, and maintain product reliability.
- Enhanced QA processes by optimizing test coverage, documenting best practices, and reporting quality metrics to stakeholders for data-driven decision-making.

Software Tester | 8 Layer Tech., Inc. — August 2021 – March 2022

- Created and executed targeted test cases for Web and Mobile applications, ensuring alignment with functional requirements.
- Conducted cross-device and cross-browser testing to validate performance, responsiveness, and usability.
- Reported defects in Jira with clear reproduction steps and impact analysis, enabling faster root-cause resolution.
- Partnered with developers to clarify technical issues, verify fixes, and streamline mobile testing processes.

Intern | 8 Layer Tech., Inc. — Feb 2021 – August 2021

- Performed functional, regression, and platform-specific testing for Web, Android, and iOS applications.
- Logged, tracked, and prioritized issues using bug management tools, ensuring clear documentation and follow-up.
- Contributed to design reviews by providing targeted feedback for both web and mobile platforms.

EDUCATION

University of Makati

Bachelor of Science in Information Technology in Service Management – 2021

EXPERTISE

- Regression Testing • System Testing • Functional Testing • Web Testing • Mobile Testing • Cross-Browser Testing
- UI Testing • API Testing • Creating Test Cases • JIRA • MeterSphere • XMind • Confluence • DevTools • Playwright
- Selenium • Java • SQL • Postman • Jenkins • Azure Devops
